VOLUME LXV., NUMBER 21. REDWOOD CITY, SAN MATEO COUNTY, CALIFORNIA, SATURDAY, AUGUST 22, 1925. ESTABLISHED 1859

ENGINEER ENGAGED FOR REDWOOD HARBOR SURVEY

The committee, consisting of City Attorney Albert Mansfield and City Engineer Charles Dimmitt which was appointed at the meeting of the directors of the Redwood City Chamber of Commerce and the Board of Trustees of Redwood City, by President E. B. Hinman of the chamber of commerce, to secure the services of an engineer to make the necessary surveys and prepare a report on the Redwood City harbor facilities, have selected W. H. Fairbanks for this service.

The committee desired a man who was not only a first-rate civil engineer but one versed in harbor work and with the requirements of the United States War department. The qualifications of Fairbanks seemed to fit him for such a position. He entered the consular service in 1908 and later the diplomatic service of the government. In [illegible] was appointed commercial agent in charge of the southeast [illegible] office of Bureau and Foreign and Domestic Commerce. In [illegible] he was appointed to the staff of the War Trade Board in Washington, and in the following year became a director of the Massachusetts State Commission on Foreign and Domestic Commerce, established by law to proote the industrial, commercial and transportation development of the State.

Work on this project will begin immediately, as it is the desire of the board of trustees and the chamber of commerce to have the report ready for the approval of the engineers of the war department in time that an appropriation may be made by the next congress.

Swart Okehs Deputy Salaries

In an opinion filed yesterday by District Attorney Franklin Swart, the employment in the various county offices under the county government act is held valid. There has been some question as to the legality of the recently made appointments, because of the state law providing that the salary of a county official may not be increased during his term of office. The appointment of a deputy is considered as an increase in salary by the appointing official.

The opinion filed by District Attorney Swart effects deputies in the offices of the county librarian, county engineer, county treasurer, tax collector, auditor and sheriff. According to the district attorney, the legislature in 1924 provided that the legislature may by general law provide for the appointment of deputies. It is his opionion that this ruling makes the appointment of deputies in these offices legal.

PHELPS STREET TO BE REPAIRED

One of the questions which has perplexed the board of Trustees of Redwood City for many years is now about to be settled, judging from action taken by the trustees last Monday evening. The matter is the paving of Phelps streets, which has long been a question of vital necessity to Redwood City.

Phelps street was paved about twelve years ago, the pavement laid at that time, however, was of such a character that it soon broke to pieces and for a number of years Phelps street has been a subject of much speculation. As the people have just this year finished paying for the pavement, which has now entirely broken to pieces, it was not thought possible to proceed with the ordinary type of street improvement proceedings. And as it is thought that if the matter were made the subject of a general bond election it would be voted down, this method was not thought feasible.

At the meeting Monday, E. B. Hinman, president of the Chamber of Commerce, met with the trustees and placed the matter before them. The present condition of Phelps street, he stated is not only making Redwood City the laughing stock of the peninsula, but is actually costing the town many dollars every week, because the people who live south of Redwood City prefer to drive farther south to do their trading rather than traverse the half dozen blocks of rough road.

City Engineer Charles Dimmitt was instructed to prepare plans and specifications for repaving this street, which will be ready at the next meeting of the board. It is expected that if this work cannot be finished before the rainy season that it will be one of the first matters taken up in the spring.

WOODSIDE ROAD MAN COMMITS SUICIDE

Growing despondent over ill health, Samuel Miller, a resident of the Woodside road shot and killed himself Thursday night. He was found dead in the morning by Mrs. Harry Eaton, a neighbor. Miller is 70 years of age and a native of Pennsylvania. He has no relatives that are known. An inquest was to have been held yesterday afternoon. No funeral arrangements had been made up to a late hour yesterday afternoon.

PAINTERS TO PICNIC TOMORROW AT PORTOLA

The Painters' Union of this city will hold a picnic and out-door dance tomorrow at the New Portola Camp Ground, maintained by Mrs. Bessie Rothfuss on the Portola road. A program has been prepared and a good time is promised. The camp ground can be reached either from Redwood City or Menlo Park. Admission will be 50c for adults and 25c for children.

RUMOR IS RIFE IN SAN CARLOS TOWN

San Carlos is an excited little town these days. There is an air of expectation throughout the place and everyone seems to be expecting something to happen. And something is going to happen if half of the stories current there have the least basis of truth.

Rumor has it that a three million dollar contract has been let for filling in the marsh land at San Carlos, and that machinery is now underway from the east by way of the Panama canal for the purpose. The plan as outlined is to perform the very feat which Mohamed became famous for not doing. A mountain is to be moved to San Carlos and used to fill up the marsh. The mountain to be used in this manner is the knoll on the left of the old highway between Belmont and San Carlos, recently sold by Percy Selby. This is to be sluiced by hydraulic conveyers to the marsn and used to fill up the low spots and make firm land of a large tract of what is at present soft mud.

On the marsh thus filled and converted into solid land factories are to be located. Canals will be dug from the deep water of the bay and every forty acres of this factory land is to have its deep water channel. It was reported this week that 25 factories are now awaiting the filling process for the erection of plants on this tract.

One of the rumors which caused a flurry in the little town this week was the report that one of the factories which is to locate there is the Johns-Manville Company, one of the largest manufacturing concerns in the United States. This plant it is reported will employ three thousand people. Another plant which is reported to be coming to the bay shore to locate is a manufacturing plant for celluloid articles.

These rumors are supported by the action this week of the Pacific Telephone and Telegraph Company which has announced its intention of locating a telephone exchange in San Carlos. The telephone company is said to be looking for a location for this exchange close to the future industrial center, because it was stated, there will be need of a number of heavy duty lines on that side of the tracks.

The action of the Southern Pacific Railroad Company in building a spur track on that side of its lines is also considered by the residents as a sign of the forthcoming industrial boom.

These reports have caused a flurry in the real estate market in the little town, and property which has for years been considered of little value is now suddenly elevated into the class of choice lots. Property near the center of town is doubling and trebbling in value, and the agents are kept busy replacing their signs with others quoting higher prices.

PENINSULA MOTORS CO. BUY CHEVROLET AGENCY

Announcement was made this week of the sale of the Chevrolet agency in Redwood City by Guy Clifton, who has been agent for that well known car here for the past three years, to the Peninsula Motors Company of Burlingame. Clifton, it is understood, will retain the repair shop located in the rear of the agency, and will engage in the garage business.

The sales and service departments of the Peninsula Motors Company's branch here will continue at the place of business at 247 Main street.

The business will be conducted by M. C. Herfield of Burlingame, who has been connected with the Chevrolet Motor Company for many years. The local manager, Harry Durnam, has also been connected with the company for many years. He will be assisted by his brother, Philip Durnam, who will have charge of the accessories and parts department.

LOCAL MASONS ENJOY PICNIC AT WOODSIDE

A large number of the members of the local Masonic lodge with their families gathered at the redwood grove belonging to Miss Addie Tripp at Woodside for their annual picnic last Saturday afternoon and evening. A program consisting of a tug-of-war and other athletic events was enjoyed in the afternoon. In the evening several reels of moving pictures were shown with a projector loaned by Charles Merrill and afterward a large bon-fire was built and Otis Carrington produced a portable organ and lead in singing a number of old familar songs.

REDWOOD MAN NAMED COUNTY FIRE WARDEN

Bert L. Werder of this city was chosen last Monday by the board of spervisors of this county as fire warden. Werder has been one of the two paid firemen of the local fire department, and during the summer months for several years, has been serving as fire warden of the county. His work for the county has interferred, however, with his work on the local department and he could not get away to continue his work in the summer months.

The board decided that it would be well to have a fire warden for the yhole year in order that some protective work might be done in the winter months. Werder was unanimously appointed by the supervisors and his salary was fixed at $200 per month. Werder is to furnish his own machine for patrolling the county, but the county will supply him with gasoline.

MAGRUDER INCREASES HIS SALES FORCE

E. W. Magruder, the real estate dealer, has added two new and alive salesmen to his sales force. They are E. E. Dwyer of Fresno and E. A. Mossman of Phoenix, Arizona. Both young men are experts in their line and live ones. The growing deman for Redwood City property makes it necessary for Mr. Magruder to increase his force to meet the many applicants for homes and small acreage in and about Redwood City.

BAY BRIDGE GETS SANCTION OF BOARD

A second bridge will span San Francisco bay if the plans now under way are susceptable of completion. The first step was taken for the building of a second bridge when on Monday Frank Towns secured a franchise from the board of supervisors to erect a vehicular traffic bridge between San Mateo and the eastern edge of the bay, near Hayward. Town was granted a franchise Monday on the condition that he would immediately pay $50,000 to the enginerring firm which is to do the preliminary work on the bridge. This firm is to give a $50,000 bond to the county for the performance of its contract.

A franchise was granted for a similar bridge to Frank E. Webb, supposedly a capitalist of New York and a man who claimed to be an eminent engineer. Webb's franchise suffered many visitudes and finally expired without any work having been done on the bridge except that which Webb did verbally and through the newspapers.

Lated Webb asked for a new franchise and Towns also applied for a franchise to build a similar bridge to that outlined by Webb, except that so far as is known the Towns bridge will not be adorned with the statues of the supervisors as shown on the preliminary sketch of the Webb bridge.

At the meeting Monday Webb was represented by Albert Mansfield, who he stated had been asked by Webb by a telegram to appear for him. Any arguments that could be brought in favor of regranting a franchise to the eastern "capitalist" were nullified by testimony aduced by J. J. McGrath of San Mateo, who testified that the only work which Webb had done was to borrow a police boat and cross the bay, after which he borrowed $10 from him (McGrath) to pay the policeman who took him across. "This," said McGrath, "was the preliminary work for which Webb is suposed to have paid $50,000."

Towns was not required to deposit with the board as Webb had been asked to do, because it was contended that as Webb was not required to do so when he first applied and as no such deposit was required for the Dumbarton bridge, that it would be unfair to require a deposit of that kind at the present time from Town.

A few changes were made in the resolution by Attorneys Colebird and Williams, representing Towns, at suggestion of District Attorney Swart. Aside from these few changes the resolution was passed. It was the same in effect as that granted to John Lysle Harrington for the construction of the Dumbarton bridge.

IMPORTANT MEETING OF SAN CARLOS CLUB HELD

The San Carlos Community Club held their regular meeting on Wednesday evening at the school house auditorium, Chairman E. R. Burton, presiding.

Fred H. Drake who is in charge of the San Carlos Float reported the following donations: Koff Realty Co. $125; Municipal Properties Co. $125; Fred H. Drake $125; Asa Hull $25; and San Carlos Volunteer Fire Department $15.00

Harry Gee reported that the committee appointed to take up the matter of mosquitoes has been taken care and the necessary action taken to handle the situation. Dr. J. G. Null and G. F. Walker were also on this committee.

Mrs. Harry Mahany reported that the costumes which will be worn by the different characters on the San Carlos float will cost $64.

Harry Gee, also chairman of the entertainment committee reported that after all expenses had been paid a total of $35.10 was realized at the last card party and dance given by the San Carlos Volunteer Fire Department and San Carlos P.-T. A. on last Saturday evening. As the full quota was not realized at this affair, another card party and dance will be given on Saturday, August 29th, at the school house auditorium.

Mrs. Arlington Dennery was appointed publicity chairman by Chairman Burton, and W. L. Kenaly and J. W. Davis were appointed as a committee of two to bring in new members, as it is very essential to swell the membership of the club.

Fred H. Drake in behalf of the residents thanked Chief of Police Wheeler for his fine and dilligent work on the highway in handling the traffic and reducing the danger of pedestrians crossing the highway to and fro the station.

That the object of the club is for giving expression to complaints and grievances, so they will reach the proper authorities, instead of standing on the corner and hashing them over with the neighbors, was explained by Drake.

All present were requested to remind their neighbors of the next meeting, so a better atendance will be had. It is the intention of the club to draw up at the next meeting a winter program providing for entertainments, good speakers, educational work and progressive issues.

It was also decided to address a letter to the City Board asking them to communicate with several citizens in reference to removing some of the weeds on their property which are a menace and eyesore to this fast growing community.

On September 19th, the community club will give its first card party and dance. No donations will be asked at this affair and everyone is requested to attend and get acquainted.

The Scout organization will soon be organized again under the leadershp of W. L. Kenealy, former scoutmaster. A Girls' Camp Fire organization will also be started in the very near future.

Oak Park Sale May Be Halted

District Attorney Franklin Swart yesterday issed a citation to S. Koff of the Koff Realty Company to appear before him and show cause why a warrant should not issue. Some time ago a complaint was filed with the district attorney aleging that Koff was selling lots in the White Oaks tract, near Redwood City from a real estate map and not according to the official map filed with the board of supervisors. The complainant alleges these facts which if true is a very serious offense. Koff may, however, have an alibi. The citation has gone forth and Mr. Koff will have to answer. The Koff Realty Company recently bought the beautiful White Oaks tract from the Brittan estate on which they are spending the large sum of $150,000 in putting sewers building roads and streets and sidewalks and other costly improvements. It is said the concern has sold more than half the tract. Lots are being sold in the tract all the way from $300 to $3,000

COUNTY PIONEER, SUPERVISOR DIES

Following an illness of several months, Julius Eikererinkotter, a member of one of the pioneer families of the county, and a former supervisor of the county, passed away at his home in South San Francisco last Saturday. Eikerenkotter is a brother of George Eikerenkotter of this city and spent most of his life here. He was born in the now deserted vilage of Searsville, in the hills west of here, and spent his younger days here in Redwood City. For the past thirty years he has been in South San Francisco.

Eikerinkotler was a prominent political figure in the county for many years and served two terms as supervisor for the First township. It was during his term as supervisor that the present court house was built and the plate on the front of the building bears his name.

In the early days of the county, Eikerenkotter was a teamster, and made a business of hauling wood to the old Ravenswood wharf, long since abandoned. This wharf was a busy place in those days and from it many a ship load of wood was sent to San Francisco, this county at that time supplying the greater part of the fuel for the metropolis. Eikerenkotter with his team of six horses was a familar character between Portola and Ravenswood.

The deceased is survived by his widow, Mrs. Alice Eikerenkotter, by three daughters, Miss Beatrice Eikerinkoter, Mrs. Henry Haaker and Mrs. C. H. Myers and by two brothers, Charles and George Eikerenkotter.

Funeral services were held last Tuesday in the chapel of Cypress Lawn and were followed by interment.

UNIVERSITY EXTENSION COURSE

After-vacation courses in story writing, short stories, features and news stories, are being announced by University of California Extension, to organize at the Pacific building, Market and Fourth treets, San Francisco, Tusday and Wednesday evenings, September 1 and 2.

All the classes, which are open to the public, will be conducted by Gilbert G. Weigle, whose success for the past five years is attested by the many former students who are today recognized writers of fiction and newspaper stories.

Registrations are being made at the Extension offices in Berkeley, Oakland and San Francisco. On account of limited class room accommodations early enrollment is suggested. Interested students are invited to visit the opening evenings, news and features at 7 and 8 on Tuesday and short stories for beginners and advanced students at 7 and 8 on Wednesday.

TAX TITLE PROPERTY TO BE QUIETED

Those who desire to quiet title to tax title property should see The Doxsey Company or Jas. T. O'Keefe at once as another suit is about to be filed.

DISTINGUISHED VISITORS ADDRESS KIWANIANS

Three prominent firemen of the state were guests of Fire Chief Mark Ryan of this city last Tuesday and attended the meeting of the Redwood City Kiwanis Club, and addressed the members of that organization. The visitors were State Fire Marshall Jay Stevens, Chief Thomas R. Murphy of San Francisco and Chief T. J. Harrington of Yosemite Valley.

The men were in Redwood City at the invitation of Chief Ryan to make an inspecton of the town and make any suggestons as to the improvements of the fire service or to matters of fire prevention.

At the Kiwanis Club meeting which was under the chairmanship of Chief Ryan, who was recently honored by being elected vice-president of the fire chiefs of the Pacific Coast, all three men addressed the Kiwanians and urged the greatest co-operation with the fire department. The Redwood City department was highly praised by the visitors as was its chief.

Stevens, fire marshall of the state, and a member of the Kiwanis Club of San Francisco, stated that the recommendations of the board of fire underwriters were too stereotyped in style and did not fit conditions here. The board recommended that Redwood City get a "regular paid chief." This was, Stevens stated, a ridiculous recommendation. "Money cannot buy the service which Mark Ryan is rendering the town of Redwood City, Stevens said.

Jay Stevens also told the club of his experiences at the international convention of Kiwanis held at St. Paul last month. Stevens was responsible for the passage of a resolution by the convention regarding fire prevention. He was also able to secure a similar resolution from the convention of Lyons Clubs.

GENE CERQUI WEDS DOROTHY GIBSEN

When Gene Cerqui, deputy in the county clerk's office, and Miss Dorothy Gibsen of San Mateo appeared in the office of County Clerk Elizabeth M. Kneese for a marriage license last Saturday, they not only "turned over a new leaf" but took a brand new book for their license. When the young people asked for a license, Mrs. Kneese brought out a new register and they were given the first license out of the new book.

In the afternoon at a quiet wedding at St. Mathew's Catholic church in San Mateo, at which only the near relatives of both parties were present, the marriage ceremony was performed. Miss Helen Jennings, a cousin of the bride acted as bride's maid and George Roberts of this city was best man.

The bride is the daughter of Mr. and Mrs. H. Gibsen of San Mateo and is an exceedingly pretty girl and very popular. Cerqui is the son of Mr. and Mrs. John Cerqui of this city. He is a graduate of the Sequoia Union High School and is a past president of the local Native Sons.

Following the ceremony in San Mateo, the young couple left for a honeymoon in the southern part of the state. Upon their return they will begin the erection of a bungalow on the Woodside road, adjoining the home of the groom's parents.

The groom was given a shower by Mrs. Kneese and the other clerks in her office last week and was given a beautiful mirror and a set of silver forks as well as a number of comical gifts.

GETTING RESULTS

WE have here in Redwood City an organization formed for one purpose—to get results, and judging from indications that purpose will be well fulfilled. We refer to the Redwood City Chamber of Commerce. This organization has undertaken one of the greatest tasks that any organization of its kind and size has ever undertaken, and is successfully bringing it to a culmination.

The chamber of commerce has set for itself the task of securing deep water harbor facilities along the Redwood City water front, and already has an engineer at work on the matter. At a meeting at which only a few of the property owners were present the Chamber of Commerce under the chairmanship of President E. B. Hinman succeeded in having more than one thousand dollars subscribed within a few minutes to carry on this work.

The condition of Phelps street was considered by the chamber of commerce and within a few weeks the street will be improved. The chamber of commerce, under E. B. Hinman, is getting results, and will get results as long as the people of the town stand behind the president of this organization in his comprehensive plans for the development of the town. The chamber of commerce is an organization which should have the whole-hearted support of every citizen.

A CHANCE FOR IMPROVEMENT

A sage far wiser in the nature of things than we once remarked that nothing is so good but that it could be better. Perhaps with this by way of introduction we may be permitted to dwell for a minute upon the county poor farm. This little settlement of the old and destitute certainly bears out the wisdom of the sage aforementioned. It is not so good but that it could be better.

We are assured that the county cannot afford to build new buildings to take the place of the rambling old barns which at present masquerade under the name of the poor farm, but we still think that a coat of paint applied occasionally and a little repair work inside and out might make the place a little more attractive.

It is possible that the poor farm, as at present, is a great boon to the county, and a great argument in favor of thrift. No one will take any chances of going to the present poor farm. Personally we would deprive ourselves of almost anything, even the home town paper, in order to avoid an end so disastrous.

But it seems to us that those who are too old to help themselves, who have no one upon whom they may depend and no reserve of their own should be given more consideration that is ordinarilly given to matters pertaining to the poor farm. The whole thing is a drain on the county treasury, and not a single inmate will ever in all likelihood be an asset to the county, but aside from all that we feel that it is a public duty to make the last days of these poor unfortunates as little burdensome as in our power lies.

—o—o—o—

ANOTHER GOOD ROAD GONE WRONG

IT is very seldom that a county has an opportunity of building a new road over a roadbed already graded, all cuts made and all fills ready for the pavement. But this opportunity is open to this county along a road which is vitally necessary to a large section of the county, and yet they have evinced no intention of taking advantage of it.

From San Francisco to Montara runs the old roadbed of the Ocean Shore Railway, now abandoned and becoming more and more undermined by each winter's rain. This road bed is an almost level road along the shores of the ocean. There are no grades that even the "wheeziest" old car could not pull on high, yet this road bed parallels a road now in use which traverses some of the steepest hills of the county. The old railway has no sharp turns, but the present road is noted for them, and the railway road is several miles shorter.

This road is going to ruin for lack of attention, a roadbed firm enough to carry the heaviest trains, with a grade that an engine could pull with a train of cars, and turns that a long freight car could manage without becoming derailed; and the present road is used by thousands of motorists.

The coastside practically depends upon this road for its transportation. Some action should be taken to save this excellent road before it is completely ruined.

JUST ANOTHER KIND OF NEWS

The Dearborn Independent, Henry Ford's paper has changed its policies and will now accept advertising. The Dearborn Independent has long been unique among newspapers in that it was all news and no advertisements. The management has found, however, that good advertisements are as necessary to a paper, and as helpful to its readers as the best reading matter. In fact the advertisements of many of the metropolitan papers are more read than the news. Every one is interested in what the stores are offering and where the best can be bought for less while only a few read the financial, household, sporting or society pages. Also goods do as much to build up a community as good editorials, even more, for as mentioned above more people will read the advertisements than read the editorials.

MILADY NOW WEARS RABBIT FUR COATS

Milady, resplendent in cloak of near seal, red or silver fox, ermine or chinchilla, may be wearing rabbit fur, for aught she knows.

That such a contingency exists will be demonstrated at the California State Fair at Sacramento September 5th to 13th, where the development of the growing of rabbit furs on a commercial scale will be shown in a large and attractive exhibit of cloaks, capes, scarfs, neck pieces and other articles or adornment so dear to woman's heart.

How rabbit furs look before and after treatment for commercial use and after being made into garments will be shown, those of such strains as the Flemish Giant, New Zealand Red, Himalayas and American Blues being employed for the purpose.

The development of the commercial phase referred to has reached the importance of an industry in California, and meets the needs of the situation brought about by the scarcity of wild fur bearing animals, due to incessant trapping through the years.

The exhibit of rabbit furs will be shown in conection with the pet stock display, which will form an important division in conjuction with the Poultry Department.

Take Name From Farm

In Norway and Sweden many hired men and girls, and sometimes even the son or daughter of the farmer, take the name of the farm they live on.

Well Known Clubman Dies in Paris

Joseph Kellogg Hutchinson, the well-known San Francisco attorney and club man who passed away at Paris last Sunday from spinal meningitis, was well known in this city. His mother was Kate Kellogg, a very attractive and talented woman, who in the early eighties took an active interest in the affairs of the Congregational church and civic matters here. She married Attorney Joseph Hutchinson in 1882, some time afterwards building the first modern home in Palo Alto, where the deceased spent his boyhood. The old Kellogg place back of Wellesley Park was one of the hospitable homes of this section in the early days as well as one of the show places of the peninsula. It is now know as the Hellman place. The deceased was a cousin of Walter T. Kellogg, manager of the Pacific Gas and Electric Company here.

Mr. Hutchinson graduated from the college of law at Stanford University in 1911 with the degree of LLB. He was admitted to practice the same year. During the war he was a lieutenant with the United States in the intelligence department in Mexico.

He leaves a widow, Katherine Hooper Hutchinson, and a 5-year-old son, Joseph Hutchinson.

He was a member of the Pacific Union, University Press, Presidio Golf and Commonwealth clubs, the Los Angeles Athletic Cub and Lawyers Club of New York City.

EXTENSIVE FIRE FIGHTING METHODS

Fighting fires is one thing, but when there aren't any fires to fight why the firemen haven't anything to do—that is, most of them.

Just about everyone knows how heavy time hangs on the hands of the "boys" around the average city fire engine station between alarms, but anyone interested in seeing something different can find it at the central fire station in the Highland Park plant of the Ford Motor Company.

Here the picture is entirely different. Just back of where the fire truck stands there is a row of drill presses and between alarms the firemen keep busy operating the presses in the manufacture of parts for Ford cars.

Besides, the men work in eight-hour shifts twenty-four hours a day. There is no sleeping quarters and the men are wide awake and on the job all the time.

It is less than twenty feet from the presses to the fire truck so when an alarm comes in it is only a matter for each man to make quick turn around and climb on the truck to transform himself from a machine operator into a fireman on the way to a fire.

Ninety men regularly employed in the Highland Park plant are on the fire department roll and this force is augmented by 200 specially trained men who may be called out at a moment's notice in case of emergency.

The regular firemen work in three divisions, thirty on each eight-hour shift. Of these in each shift ten are on duty all the time in the central fire station. As soon as the first squad leaves in response to an alarm the second squad moves in and if it is called out before the first returns there still is the third left to come into headquarters.

To provide and maintain adequate fire protection for the plant is in itself a big job. It must be remembered that more than 50,000 men are employed at Highland Park and that the plant area covers 276 acres of which 105 are under roof. There is a complete fire alarm system, with boxes located at convenient places throughout the buildings and yards and in addition to the fire truck the fire-fighting equipment in the plant includes 100 forty-galon chemical tanks mounted on wheels, 2,000 3-gallon hand extinguishers and 6 miles of hose on racks in various parts of the plant close to fire hydrants.

ASKS ANNULMENT

Charging certain misrepresentation made by his wife before their marriage, Arthur Latimore Thursday filed suit for annulment in the Superior court here against Eleanor Taylor Latimore. The couple were married in June, 1925, in Redwood City. David Marchus of San Francisco is the attorney for the plaintiff.

MYSTERIOUS DOCUMENT SOLVED BY A. McSWEENEY

Recently T. C. Rice, the recorder, became puzzled on opening his mail and finding a document written in a foreign language. His first impulse was to waste basket it, but on closer scrutiny he found it to be a money order. After calling a number of experts to pass on the document, who could not dicipher it, he finally called A. McSweeney, the tax-collector, who at once pronounced it a Gaelic money order for $2.00. Mr. Rice recalled that some time ago he forwarded a bill to some one in Ireland for payment of two duplicate birth certificates.

Disappearing Islands

There have been various instances of islands disappearing through volcanic action or through erosion. One of the principal examples of the former is Graham island (Ferdinandea), in the Mediterranean, which was thrown up a height of 200 feet with a circumference of three miles in 1831. It soon disappeared, however.

Whalebone

The most valuable whalebone commercially is that of the right whales, especially that of the bowhead, which may have a length of from 10 to 12 feet, and is very flexible. A single bowhead yields 2,000 pounds of whalebone, valued at from $5 to $7 a pound.

SENSATIONAL CROOK DRAMA COMING SOON

Tod Browning's Great Mystery Film Said to Excel All Former Offerings

Tod Browning's "The Unholy Three," a Metro-Goldwyn-Mayer production that has been hailed as the greatest crook film of many years, will be seen Monday and Tuesday of next week at the Sequoia Theatre on Broadyay.

Browning has long been famous as a director of underworld stories and he is said to have excelled all past performances in the making of this thrilling melodrama.

"It's pure melodrama," says Browning, "but there is no villain with a mortgage and there is no widow whose home is about to be taken from her. Also there is no great storm scene and no erring daughter kicked out to the mercy of the raging elements by an enraged father."

"The Unholy Three" is a film adaptation of C. A. Robbins' story of the same name and its locale is new York City and vicinity.

The cast includes such famous players as Lon Chaney, Mae Busch, Matt Moore, Victor McLaglen, Harry Earles and Mathey Betz.

The story opens in a cheap museum where, following a riot, three of the freaks on exhibition become a trio of crooks and assume the title of "The Unholy Three." Rosie O'Grady, who has been picking pockets in the museum joins the crooks who cover their tracks by operating a bird and animal store.

An innocent male clerk, played by Matt Moore, becomes infatuated with Rosie O'Grady (Mae Busch) and the rivalry starts between "Prof. Echo" (Lon Chaney) and the clerk, (Matt Moore).

Following an atrocious murder the trio escape by framing evidence against Rosie's lover. He is saved by what is almost to be considered as a miracle and two of the crooks lose their lives. The story ends with the reunion of the lovers and the regeneration of the master crook.

The film is filled with heart interest and a large amount of comedy.

"STREETS OF FORGOTTEN MEN"

oOo

"The Street of Forgotten Men," a Paramount screen version of the George Kibbe Turner romance of New York's underworld, produced by Herbert Brenon and featuring Percy Marmont, Neil Hamilton and Mary Brian ("The Little French Girl"), is the feature at the Sequoia Theatre next Wednesday and Thursday, August 26 and 27.

After all these years of grafting, the story of "Easy Money" Charlie comes to life. Shades of Dr. Jekyll and Mr. Hyde But Stevenson's character had nothing on this man. Easy Money lived in "The Street of Forgotten Men." He was a fake cripple who "took" New York's crowds of hundreds of dollars weekly—but in his cozy little cottage outside of the city he was a "successful business man" to all that knew him.

One of the women hangers-on in Diamond Mike's saloon had entrusted into Charlie's care a baby daughter, whom he had brought up far from "the street," and now with her chance of marrying a fine young millionaire came threatened exposure. Never had the girl even dreamed that there were such men in the world as her guardian, and then when the crisis came he fought—fought like a maddened animal to keep her from ever learning such a thing.

If there's ever to be another "Miracle man," "The Street of Forgotten Men" is it—the story of a Bowery cinderella and a beggar who lost himself for love.

Percy Marmont, in the role of Easy Money Charlie, gives a charcater portrayal second to none the screen has ever seen, and Mary Brian is a real grown up girl in this one.

John Harrington, as Bridgeport White-eye, is the only one who knows about Easy Money and the girl and it is when he tries to blackmail the girl—drag her down into "The Street of Forgotten Men," that the fight starts—a fight that can be compared with nothing yet seen on the screen. There has never been anything to even approach it.

Creoles Not Colored

Creole is the name given to people born and naturalized in the West Indies or the tropical countries of America but of European (usually French or Spanish) origin, as distinguished from the offspring of mixed blood, such as mulattoes and quadroons, from negroes and from aborigines. The name has no connection with the color.

Catting Circle of Glass

The following has been suggested as a good method of cutting a circle of glass from a square piece. First mark the glass with a circular glass cutter and then mark four diagonal lines with a straight glass cutter from the circumference to the corners. Turn the glass over on a flat surface and tap lightly with a pointed tool such as a cold chisel over the markings.

'Twas 138 in Shade

What is the hottest day on record? T. F. Hayes, well-known Britisher, says that during the summer of 1917, at a place called Samarra in Mesopotamia, the thermometer in a railway station reached 138 degrees. This was in the shade. He says the temperature remained around 138 degrees for a fortnight.

LEGAL NOTICE

RESOLUTION OF INTENTION NO. H-14

RESOLVED, that it is the intention of the Board of Trustees of the Town of Redwood City, County of San Mateo, State of California, to order the following work to be done and improvements to be made in said Town of Redwood City, to-wit:

That Edgewood Road from Melrose Place to the southwesterly limits of the Town of Redwood City; and also that Whipple Avenue from the southwesterly property line of Woodstock Place extended southeasterly in a straight line across Whipple Avenue to the southwesterly limits of the Town of Redwood City, including all street and avenue intersections and terminations and portions thereof within the lines of the above described streets, roads and avenues be improved as follows, to-wit:

That the roadways and portions of roadways of said above described streets, roads and avenues be graded and paved with a five (5) inch cement concrete pavement. The pavement hereinbefore mentioned to be constructed upon the termination of Jeter Street and Whipple Avenue shall extend eleven (11) feet southeasterly from the southeasterly line of Whipple Avenue to connect with pavement now in place; the pavement hereinbefore mentioned to be constructed at the termination of King Street and Whipple Avenue shall extend ten (10) feet southeasterly from the southeasterly line of Whipple Avenue to connect with pavement now in place; the pavement hereinbefore mentioned to be constructed at the termination of Lowell Street and Whipple Avenue shall extend ten (10) feet southeasterly from the southeasterly line of Whipple Avenue to connect with pavement now in place; the pavement hereinbefore mentioned to be constructed at the termination of Myrtle Street and Whipple Avenue shall extend three (3) feet southeasterly from the southeasterly line of Whipple Avenue to connect with pavement now in place; the pavement herein before mentioned to be constructed at the termination of Nevada street and Whipple Avenue shall extend eight (8) feet southeasterly from the southeasterly line of Whipple Avenue to connect with pavement now in place.

That hydraulic cement concrete curbs be constructed on both sides of the streets and avenues above described to be paved, said curbs to be six (6) inches across the top and eleven (11) inches deep and to be made and constructed at the same time as the pavement so that there will be no joint between the curb and pavement. Said curb shall also be constructed upon all corners of intersecting and terminating streets and avenues wherever said streets and avenues are to be paved as hereinbefore described. There is excepted, however, from the curb herein mentioned a piece on the southeasterly side of Whipple Avenue between the southwesterly property line of Woodstock Place extended southeasterly in a straight line to the southeasterly line of Whipple Avenue and the northeasterly line of Iris Street, including the curb return on the southeasterly corner of Iris Street and Whipple Avenue, curb being now in place.

The width of the streets, roads and avenues and portions thereof above described and the width of the roadways of said streets, roads and avenues and portions thereof and the width of the sidewalks of said streets, roads and avenues are to be and are as shown on the plans, profiles and specifications hereinafter particularly referred to herein.

That the official elevations for street grades of said streets, roads and avenues and portions thereof, crown grades, curb grades, and grade elevations for top of gutters be changed and grades different from those established or adopted prior to the adoption by the Board of Trustees of the Town of Redwood City of the plans, profiles and specifications hereinafter referred to herein shall be adopted and such official and different and prior grades shall be modified and are hereby modified and changed so that the official grades shall be and conform to the grades as shown on the plans, profiles and specifications for said work and improvement, which plans, profiles and specification were heretofore adopted by the Board of Trustees of said Town of Redwood City on the 10th day of August, 1925, by Resolution Adopting Plans and Specifications No. H-14, which plans, profiles and specifications are now on file in the office of the Clerk of said Town of Redwood City. All the work and improvements herein described shall be done and made to such new official grades as shown on the plans, profiles and specifications hereinbefore mentioned, to which plans, profiles and specifications reference is hereby made for a description of the grades at which said work is to be done and made, and the same are made a part hereof.

And all the aforementioned work and improvements are to be done and made in accordance with the said plans, profiles and specifications hereinbefore mentioned, which plans, profiles and specifications are now on file in the office of the Clerk of the Town of Redwood City, and to which plans, profiles and specifications reference is hereby made for an accurate detailed and complete description of said work and improvements and the same are made a part of this Resolution of Intention.

And said Board of Trustees does hereby determine and declare that the foregoing described work and improvements are of more than local or ordinary public benefit and will affect and benefit the lands and district hereinafter described, which said district is hereby declared to be the district benefited by said work and improvements and to have the exterior boundaries hereinafter described as the boundaries thereof; that therefore the entire costs and expenses of said work and improvements shall be and are hereby made chargeable against and shall be assessed upon said lands and district, which district is within the limits of the Town of Redwood City, County of San Mateo, State of California, and the exterior boundaries thereof are particularly described as follows, to-wit:

Notice is hereby given that serial bonds to represent unpaid assessments and bear interest at the rate of seven (7%) per cent per annum will be issued hereunder in the maner provided by the Improvement Bond Act of 1915, the last installment of which bonds shall mature and be payable nine (9) years from the second day of July next succeeding ten (10) months from their date.

Except as hereinabove otherwise provided for the issuance of said serial bonds all the foregoing described work and improvements shall be done in pursuance of and in conformity with an Act of the Legislature of the State of California entitled "Improvement Act of 1911," approved April 7th, 1911, and Acts amendatory thereof.

And notice is hereby given that Monday, the 31st day of August, 1925, at the hour of 8 o'clock P. M. of said day at the meeting place of the Board of Trustees of the Town of Redwood City in the Council Chamber in the Town Hall on Webster Street in the Town of Redwood City, County of San Mateo, State of California, has been and is hereby fixed as the day, hour and place when and where any and all persons having any objections to the proposed work and improvements described herein or to the district to be assessed therefor or to the proposed grades at which said work and improvements are to be done and made may appear before the Board of Trustees of said Town and show cause why said proposed work and improvements should not be carried out in accordance with this Resolution of Intention or why said work and improvements should not be carried out and done at the grades as shown on the plans, profiles and specifications hereinbefore referred to herein.

Passed and adopted by the Board of Trustees of the Town of Redwood City at a regular adjourned meeting of said Board held on the 10th day of August, 1925, by the following vote:

AYES and in favor of the passage of the foregoing Resolution, Trustees C. K. Mahie, A. E. Monteith, G. W. McNulty, H. A. Beeger.

NOES and against the passage of the Resolution, Trustees, None.

Absent Trustees, M. E. Ryan.

H. A. BEEGER,
President of the Board of Trustees of the Town of Redwood City.

Attest:

W. A. PRICE,
Clerk of the Town of Redwood City.

I hereby approve of the foregoing Resolution this 10th day of August, 1925.

H. A. BEEGER,
President of the Board of Trustees, Town of Redwood City.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening gasoline smell in your clothes.

Enjoy the Best Time of the Year

Now come the most glorious days of all—late August, September and golden October! Days meant to be lived out-of-doors—when the roadsides are ablaze with flowers, and the woodlands a riot of color.

Take a Ford Car and strike out from the crowded highways. Explore the side-trails that lead to the best fishing, the loveliest spots of natural beauty.

There is no going too hard for your Ford; nothing at which its willing power will balk. And its control is so simple, so easy that you can venture where you will on unknown dirt roads, with the same confidence with which you set out on the paved highway.

The best vacation days of all are still ahead, the weather is less changeable now and roads are in better condition. Get a Ford Car and revel in the finest time of the year.

What is a FUSE?

A FUSE is a safety device—a small strip of fusible metal inserted in a circuit.

When there is a short circuit, or the current increases for other reasons beyond a safe amount, the fusible metal in the fuse melts and breaks the circuit.

The fuse in this way prevents damage from over heated wires.

And said combination curb and gutter shall be made and constructed at one time so that there shall be no joint between the curb and gutter. There is excepted from said curb and gutter the portion fronting the park bounded by Howland street, Allerton street, Standish street and Warren street and adjacent to the curb line around said Park. There is also excepted from the foregoing described combination curb and gutter all that portion on both sides of Howland street between the northeasterly line of Arguello street and the southwesterly line of Warren street; on both sides of Standish street between the northeasterly line of Arguello street and the southwesterly line of Warren street; on the southeasterly side of Hopkins avenue from the northeasterly line of Arguello street to the southwesterly line of Warren street; and on the northwesterly side of Hopkins avenue from the northeasterly line of Arguello street to a point 200 feet northeasterly therefrom; on the northeasterly side of Eaton street from the northwesterly line of Fuller street to Brewster avenue including the southeast corner of Eaton street and Brewster avenue, and the northwesterly side of Brewster avenue from the northeasterly line of Allerton street to a point 100 feet northeasterly therefrom, curbs being now in place at said places. That hyraulic cement concrete gutters be constructed immediately adjacent to all the curbs now in place as lastly herein described upon Howland street, Standish street, Hopkins avenue, Eaton street, Brewster avenue and upon the southeast corner of Eaton street and Brewster avenue, said gutters to be eighteen (18) inches wide and to be six (6) inches thick next to the pavement and six (6) inches thick next to the curb.

Said cement concrete combination curb and gutter shall also be constructed upon the corners of intersecting and terminating streets and avenues within the lines of the streets and avenues hereinbefore described to be paved. Said cement concrete combination curb and gutter shall also be constructed outside the lines of the street and avenues hereinbefore described to be paved at the following corners, to-wit: Northwest corner of Alden and Warren; northeast corner of Alden and Warren; northwest corner of Alden and Allerton; northeast corner of Alden and Allerton; southeast corner of Alden and Allerton. There is excepted from the foregoing curb and gutter on corners the four corners of the Park, bounded by Howland street, Allerton street, Standish street and Warren street.

The Pulgas Ranch line referred to herein is shown on the Map of the Pulgas Ranch, filed in the office of the County Recorder of the County of San Mateo, State of California, on the 30th day of December, 1857, and recorded in Book 1 of Patents at page 11.

The width of the streets and avenues and portions thereof above described and of the roadways of said streets and avenues and portions thereof, and the width of the sidewalks of said streets and avenues are to be and are as shown on the plans, profiles and specifications hereinafter particularly referred to herein.

That the official elevations for street grades of said streets and avenues and portions thereof, crown grades, curb grades and grade elevations for top of gutters, be changed and grades different from those established or adopted prior to the adoption by the Board of Trustees of the Town of Redwood City of the plans, profiles and specifications hereinafter referred to herein, shall be adopted, and such official and different and prior grades shall be modified, and are hereby modified and changed so that the official grades shall be and conform to the grades as shown on the plans, profiles and specifications for said work and improvements, which plans, profiles and specifications were heretofore adopted by the Board of Trustees of said Town on the 15th day of June, 1925, by "RESOLUTION ADOPTING PLANS AND SPECIFICATIONS NO. H-10", which plans, profiles and specifications are now on file in the office of the Clerk of said Town of Redwood City. All the work and improvements herein described, shall be done and made to such new official grades as shown on the plans, profiles and specifications hereinbefore mentioned, to which plans, profiles and specifications reference is hereby made for a description of the grades at which said work is to be done and made, and the same are made a part hereof.

And all the aforementioned work and improvements are to be done and made in accordance with the said plans, profiles and specifications hereinbefore mentioned, which plans, profiles and specifications are now on file in the office of the Clerk of the Town of Redwood City, and to which plans, profiles and specifications reference is hereby made for an accurate, detailed and complete description of said work and improvements, and the same are made a part of this Resolution of Intention.

And said Board of Trustees does hereby determine and declare that the foregoing described work and improvements are of more than local or ordinary public benefit and will affect and benefit the lands and district hereinafter described, which said district is hereby declared to be the district benefitted by said work and improvements and to have the exterior boundaries hereafter described as the boundaries thereof; that therefore the entire costs and expenses of said work and improvements shall be and are hereby made chargeable against and shall be assessed upon said lands and district, which district is within the limits of the Town of Redwood City, County of San Mateo, State of California, and the exterior boundaries thereof are particularly described as follows, to-wit:

LOCAL ATTORNEY IN STRANGE DEATH NOTE

Before he plunged over the cliffs of the Yosemite Valley, Theodore Jackowski, former florist and gardener of this county, settled up his personal affairs in every detail and noted in one of the strangest wills ever found what he wanted done with his estate. James T. O'Keefe of this city was named as the person who should see that the provisions of this will were carried out. The finding of the will this week and the bleached bones of Jackowski on a ledge more than a thousand feet below, also disclosed an agreement which for strangeness probably outranks any brought to light in this county.

The death of Jackowski was disclosed this week by the finding of the coat of the former florist near the top of the Yosemite Falls by L. B. Casey of Burlingame and John B. Peck, a student of Stanford University. In the pocket of the coat was the strange will. It began, "Last night I saw a wonderful fire fall. Now see me fall." It then proceeded to dispose of the estate of the florist and ended with the request that a redwood tree be planted over his grave. For this purpose he left $5 to the sheriff of Yosemite Valley.

A search of the ledge below disclosed the bleached and crushed bones of the man. They had been there it is estimated, for about six weeks and little was found by which they could be identified.

In his will Jackowski asks that Attorney O'Keefe collect a debt of $1200 said to be due from his former partner, Arthur Schweren, a florist of Mayfield. This brought to light the agreement between Schweren and Jackowski. When Schweren and Jackowski had dissolved partnership, Schweren is said to have paid Jackowski $1500 for his share in the business. But Jackowski demanded $1000 more. It was then at the dictation of Jackowski that Attorney O'Keefe of this city drew up the agreement, entered into by the two partners in which it was provided that if Schweren failed to live with Mrs. Schweren continuously for five years, he was to pay Jackowski the $1000. If on the other hand, he didn't carry out the specifications, the amount was to go to the Schweren heirs.

This agreement was drawn up in December 1921, and would have terminated next year.

Shortly after this Jackowski was left a legacy of $500,000 by an uncle in South America. He then began a lavish life and made a tour of the world. He recently returned to San Francisco and lived in high style. He registered at the Yosemite Lodge in June of this year.

In his will Jackowski leaves $20 to Sheriff Finn of San Francisco and $5 to each of the two policemen who arrested him for speeding a short time before his suicide. A bequest of $10 is made to the "trusty who treated me so kindly while in jail." Jackowski served a two months' term for speeding.

After the stipulated bequests are made the residue of the estate is to be left to the Veterans' hospital at Menlo Park.

LOCAL MAN SUES TO BREAK STIPULATION

Suit to break a stipulation made by him when he secured a divorce from his first wife that he would leave $100,000 in his will to their son, was filed this week by Carlton Earl Miller of this city. Since the stipulation was made Miller, has remarried and has two children by his second wife. The suit now on file names his son, now a minor of 14 years as defendant. Miller alleges that since making this agreement concerning his will that he has lost a portion of his fortune, and that he cannot comply with the agreement. He is represented by Ross & Ross of this city.

Hair Dryer Starts Motors

During damp weather and after periods of idleness it was found difficult to start the motors of the seaplanes on the battleship Maryland. Somebody on board the vessel thought of a novel scheme to remedy this difficulty, according to a report by the vessel to the bureau of aeronautics. A hair dryer and a carbon lamp were used. The carbon lamp is secured alongside each magneto and is kept lighted while the plane is fastened to the catapult. When the plane is ready to be flown the hair dryer is used on the spark plugs and the exposed ends of ignition wires. It works fine, says the report.—Pathfinder Magazine.

The Critic's Pun

Frank Harris, the novelist and critic, spent the winter on the Riviera, and one day on the Promenade des Anglais in Nice a rich young poet accosted him.

The poet, who belongs to the new expressionist school—he has leanings besides toward diabolism, dadaism and dottism—said with a smile of tremendous self-assurance.

"Ah, good morning, Mr. Harris. What did you think of the volume of poems I sent you last week?"

The critic laughed and answered in his melodious bass voice:

"So bad it couldn't be verse."

"Popular Sovereignty"

In United States history the political term "popular sovereignty" was the theory that the right to decide whether slavery should exist in a territory rested with the people of that territory and not with congress. It was advocated especially by the democrats during the period 1847 to 1861 and its leading champion was Douglas. It was often termed "squatter sovereignty." The latter is simply the colloquial term.

Shellac

Lac is a resinous substance exuded from an East Indian scale insect. It consists of a granular substance forming cells for the shelter of the eggs of the insect and incrusting the twigs of various East Indian trees. The females are embedded in the mass and certain parts of their bodies contain a red fluid, furnishing crimson and scarlet dyes, which are dissolved out of the stick or "seedlac," leaving the shellac of commerce.

Aid to Stone Cutter

Massive one-piece columns as high as 40 feet, have been produced from a single block of Indiana limestone —the column being rounded out in a comparatively short time by means of a machine called a lathe. Years ago stone columns were cut by hand. It required six weeks for one man to cut a 28-foot column. Today the lathe turns out a 28-foot column in three days.

A modern company operated telephone exchange for the city of San Carlos is being planned for realization at an early date. According to J. D. Worthington, district manager of the Pacific Telephone and Telegraph Co., the exchange will be modern in every way and will provide 24-hour service for the San Carlos residents. It may also include Belmont subscribers, although no information concerning this was given out. Decision to put in an exchange in San Carlos was made after the telephone company had received a petition from San Carlos citizens asking that such steps be taken. An investigation revealed the fact that San Carlos has grown to such an extent, and gives promise of still more rapid growth, that it can well support its own telephone exchange.

PRIZES FOR FRECKLED FACED GIRLS AT FAIR

Ten thousand bottles of milk and an equal number of cartons of cookies will be provided for the children attending the opening day of the California State Fair at Sacramento, Saturday, September 5th.

It will require six big trucks to transport this amount of nourishment for the kiddies to the Fair Grounds but the Sacramento Pyramid of Sciots, which has undertaken to take care for the little folk on that day, is prepared to supply additional thousands of bottles of milk if they be required. Prizes will be awarded for the prettiest freckled girl, under sixteen years of age, and for the most picturesque freckled faced boy under sixteen. Other contests are being arranged, and there will be clowns and other funny charcters for the amusement of the children.

NEWS OF MENLO PARK

George Lagle in charge of the Shell Company's station here, was severely burned by an incipient explosion at the station last Saturday evening. The young man was badly burned about the face and arms. He will, however, not be disfigured or his facial beauty marred. Mr. Lagle will be laid up for some time.

Santa Clara University opened last Wednesday for the fall semester. Among the new scholars from Menlo Park are Edward J. O'Keefe, Warren Morey, Farrell Buckley, Joseph McCarthy, William Wilson, Coberley Short, and Mark McCann, Jr.

A well-known theatre owner of San Francisco was here this week looking over the field for the erection of a new theatre building to cost in the neighborhood of $30,000. He departed well satisfied with the prospects.

During the week a Palo Alto capitalist had agents here seeking to invest $50,000 in business property. Deals may be soon closed on several choice parcels. Monied men see a good field for investment in Menlo Park.

G. F. Scollard, an eastern capitalist, has submitted a bid for the Major Wales property in the Drexler tract, and has already moved in although the bid is subject to confirmation by the Superior court. On August 24 the holding is to be sold at private sale.

A rummage and food sale, under the auspices of the National Council of Catholic Women, will take place on August 28 and 29 in the old Stanford Meat Market, near the postoffice, which building has been secured through the kindness of Mrs. Chester Slinger. The food sale will be held on Saturday, the 29th of August. Choice articles will be on sale at the rummage sale.

Mrs. M. Carter and her charming daughter, Irene, returned this week from an extended trip to Portland and Seattle. They had a delightful time at both of these busy cities of the north.

Miss Zita Thomas, the talented daughter of Mr. Thomas, the local realty broker, is visiting friends at Berkeley. On her return she will attend Teachers' College at San Jose. Miss Thomas graduated from the Redwood City high school last June.

Mr. and Mrs. David J. Buckley and family, who have been occupying the H. C. Henry home on Monterey Heights for the past month, returned Monday to their home in Menlo Park. Their young son has matriculated in Santa Clara University.

James C. Healey, who resided until a short time ago in the Crane cottage on Laurel avenue, was admitted to practice law by the Supreme court last week. He is in the law office of Bert Mansfield, Redwood City.

Imposing gates have been put up at St. Joseph's Parochial school. They are beautiful in architecture and costly. The expense of construction was met by the alumni of the school which has a large and growing membership.

Encouraged by the success of last year, the night school at Menlo Park will reopen Monday night, August 24 at the Menlo Park grammar school enrollment will be made and the work for the year outlined. The school will again be in charge of Mrs. Werthman of Menlo Park, assisted by Mrs. D. N. Hayn of Palo Alto. All those who wish to study in preparation for citizenship are urged to attend.

News has come from Rome announcing the elevation by the Pope of Father Patrick Guerin, pastor of the Catholic church at Marysville for a number of years to the position of domestic prelate, with the title of monsignor. Father Guerin is a nephew of the late John Guerin, who was a pioneer of Menlo Park. The priest is also a cousin of the O'Keefe brothers of this place. The honor is usually given to priests who have distinguished themselves in church work.

John Rita, employed at the Home Dairy for the past eight years, passed away at the O'Connor sanitarium at San Jose last week, following a capital operation. The deceased was a faithful employe, honest and a good worker. He was the superintendent of the vast plant.

Carl Nieghorn, for many years employed by the Menlo Park Meat market as shop man, departed for Colorado Springs last week for an indefinite period. Before returning he will visit his old home in Kansas. Carl was a faithful and reliable workman, and will be missed from his old haunts. He carries with him the best wishes of the people of Menlo Park.

T. J. Furnivale, an experienced furniture dealer of San Francisco, has leased the lower floor of the old French laundry on the highway and will open a modern furniture store. He has leased a home on Santa Cruz avenue.

The Native Daughters will give a dance in Duff and Doyle hall this evening. The daughters are also planning for a street dance next Saturday evening. The money secured by these social functions will go towards a fund providing for the Diamond Jubilee celebration.

The dance to be given by the Incorporation Club on September 12 is to be largely attended. Solicitors are out selling tickets and report the sale has reached the two hundred mark.

St. Edward's Hall, known as the Coleman mansion owned by St. Patrick's Seminary, has been leased for a school for boys. The institution will be under the jurisdiction of Stanford professors, who are to teach a new system, now in vogue in some parts of the east. St. Edward's hall was used by the seminary for the freshmen before the completion of St. Joseph's college at Los Altos.

The grammar school will open for the fall term next Monday, the high school at Redwood City will open on the same day. There will be a big freshmen class from Menlo Park to the high school this semester.

The beautiful estate belonging to Fred W. McNear on the Ringwood road, oposite the attrative home of Judge Charles A. Shurtleff, was sold this week to Mrs. William S. Porter a wealthy San Franciscian, who has always wanted to reside here. The place will be occupied by herself, son and daughter-in-law, Mr. and Mrs. Hugh Porter. The McNears who lived on the place have a home at Burlingame.

Alumni of St. Joseph's School at Menlo Park are planning a card party for August 26. The date, however, is subject to change if conflicting events are scheduled. Those in charge of plans are John Morey, chairman; James Glynn, Miss Alma Bracesco, William Weston, Miss Beth Kelly and Miss Julia Kearney.

Arrangements for the affair were discussed at a meeting of the alumni held last Friday. An entertainment followed the business session with a short sketch, Broken Dreams, featuring the program. Those taking part were the Misses Mary Sullivan, Mary Carleton, Ruth Bracesco and Alma Bracesco.

Invention of Bronze

Bronze, the only tool metal known to our ancestors of 8,000 years ago, was invented independently in both the Near East and by the Peruvian Indians.

Woodside Notes

Something resembling a building boom has reached Woodside during the past few weeks. The construction crews on the houses being built for Vice-president Gallagher of the Shell Oil Company and for Dr. Allanson Weeks, physician for the same company, are racing with each other with the result that progress is very apparent. Five other new houses are about to be begun, three of them in Portola Woods, and th demand for building sites is greater than it has been for many years.

Mr. and Mrs. Henry McArthur have returned from their visit to Seattle and Vancouver.

John D. Gish and his son, Oliver, have returned from a camping trip through northern Mendocino and southern Trinity counties. They report reaching the real back-woods, where matured individuals have never seen a railroad train or a Sunday newspaper comic supplement. As to the latter lack it is a question whether they are to be commiserated or congratulated.

It is reported that J. M. Litchfield has sold his home here to a resident of Redwood City and that extensive improvements are to be made on the property.

Word has just been received from Selah Chamberlain and his family, dated from Mineral King Camp in Tulare county as they were about to start upon a two weeks' trip with pack mules into the high mountain region.

The most elaborate affair of the season, at Woodside, was the wedding at the Fleishacker place on Sunday last when Miss Eleanor Fleishacker became te bride of Leon Sloss. preparations for the event were in evidence for several days prior to the day of the ceremony, much of the paraphernalia arriving by trucks from San Francisco. The ceremony was performed out of doors just at noon and the wedding breakfast was served under the oak trees by the Palace hotel staff from San Francisco. More than three hundred automobiles were parked along the roadways and about the house.

Mrs. Lawrence Harris entertained about forty of her friends at an out-of-doors supper on Wednesday evening. This was mostly cooked as well as served under the trees on the Harris place, a stone oven and a barbeque grill having been provided for just such occasions.

James V. Neuman and family have returned from a trip through Humboldt county, in the new Packard car recently purchased by Mr. Neuman. The trip to Eureka was made by way of the Redwood highway without particular incident but the trip back was over the coast road and was a 'different story again.' Much of the road had to be negotiated in low gear and ten times in one day it was discovered that the road had never been intended for a car of that wheelbase, the curves being so short as to require careful jockeying to work the car around the point of the curves.

Mrs. F. H. Mighalls entertained fourteen guests on Thursday at her camp among the redwoods, in honor of Miss Addie Tripp. After luncheon, auction bridge held the attention of the ladies until the sun had slipped behind the summit of King's Mountain.

Mr. and Mrs. Henry Jenkins spent Sunday last at the Big Basin.

Dr. Bradford Leavitt returned on Wednesday from a hurried trip to Pasadena.

Mrs. Joseph L. Ross, Jr., and Mrs. Frank Nash were called to San Rafael on Thursday by the serious illness of their grandmother, who has already reached the age of ninety-six years.

Eliot Bartholomew has returned from a hunting trip in the vicinity of Red Bluff.

A collision between Miss Huddart's Buick coupe and Neuman Bros. warehouse resulted in a victory for the automobile. Miss May Huddart had left the car standing on sloping ground near the Neuman store but the emergency brake slipped and the car started backward, rapidly gaining momentum. It finally collided with the warehouse, smashing a hole in the side of the building and and shaking it to its foundations. The car was uninjured.

The Woodside school opened on Monday with a first day enrollment of sixty-one. And on the first day of school, the county superintendent, Miss Abbott, called to congratulate the school on its opening and to introduce the new supervisor of drawing, Miss Wimmer.

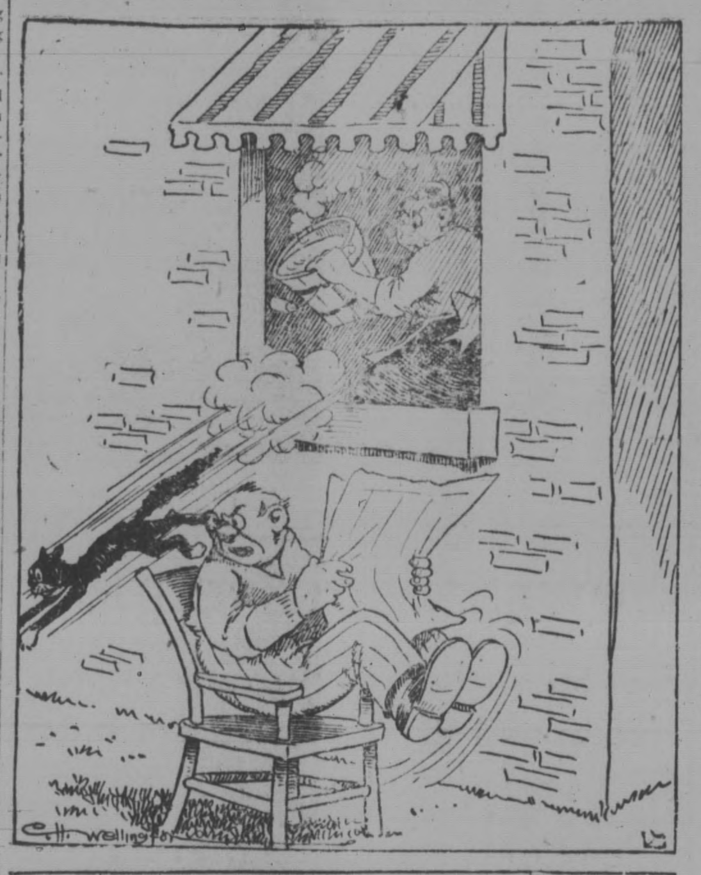
"The Worst is Yet to Come"



SEQUOIA PROFESSOR ADDRESSES BERKELEY CLUB ON "REDS"

That communists members of the I. W. W., "young internationalists," and similar groups are themselves most tyrannical, although they talk of liberty and denounce the tyranny of capital, was the assertion of Fred R. Wedge, graduate student of social and educational psychology both in Harvard and the University of California, and instructor in the English literature at the Sequoia Union High School, who addressed the Berkeley Lion's Club this week at The Varsity on the subject of the "Anti-Social Groups of America."

Speaking from an intimate knowledge of the "wobblies" gained by two years of living among them as one of them, Wedge, pointed out their peculiar psychology, how they dislike work themselves and plan to sieze control of society, thereby establishing the "dictatorship of the proletariat" by undermining industry, spreading their doctrines even in high society and to the young by getting their members into the schools as teachers.

A number of visitors attended the meeting, including Judge Robert Edgar, C. J. Struble, assistant controller of the university, Professor William Meyer of the department of astronomy in the university, Police Officer Bert Fraser and Frank Swain, sergeant of the police. Dr. William A. Tate, formerly in charge of Americanization work in Hawaii, and more recently pastor of the Congregational church of Sierra Madre, was also a visitor.

In part Wedge said:

"My interest in the I. W. W., the Marxian Socialists, the Communists, the Young Internationalists and the Anarchists was first curiously aroused when a graduate student of social psychology at Harvard. The research work, however, has been of a practical nature. To penetrate more deeply into the motives and conduct of the individual members of these revolutionary organizations I spent several months within the ranks of the radicals. The material secured during these investigations has been carefully analyzed at the University of California, and valuable suggestions have been received from social and behavioristic psychologists, with the view of making this first hand information accessible to students of economic and social problems in high schools and universities.

"To study the behavior of anti-on the docks as stevedore at San Pedro, lived with them in the foc cles of ships on the Pacific, labored with them in the lumber and railroad industries of the northwest, hoboed across the continent with the "wobblies" via the box car route, went to jail with them on two different occasions during the big I. W. W. strike at the outer harbor of Los Angeles and later was closely associated with the parlor bolshevists of the wealthy "red" colony of Pasadena.

"Most of the persons within these ultra-radical organizations have failed because of some fatal defect in their mental make-up—a taint of social groups wit hreference to primary causes, I worked with them character or a mental twist. But the Parlor Bolshevists is a strange phenomenon. He may be sometimes found in the drawing rooms of the rich and in the class rooms of our schools and universities. Placed by nature in the van of civilization he goes over to its enemies. This seems inexplicable. Yet it can be explained. The Parlor Bolshevists have overlooked a very important sociological fact. The spread of culture, the creation of artistic values, the rise of standards of living are not advanced by great social upheavels such as the French revolution and the revolt of the Russian Proletariat. The Parlor Bolshevists, exasperated by the slow progress of society, shocked at its faults, and erroneously ascribing to mankind their own lofty impulses, dream of short cuts to the millenium, join the forces of revolt, not realizing that their ends are profoundly different.

"The misguided intellectual is probably the most pathetic figure in history. Flattered by designing scoundrels, used to satisfy sinister schemes, and pushed forward as a figurehead, during the early stages of revolutionary agitation, the triumph the revolution brings him to a tragic end. Horified at the sight of barbarism's unmasked face, he tries to stay it destructive course. In vain. The mentally inferior, the snaring brute force at the bottom of society reaches out its claws to tear down the very things these Parlor Bolshevists cherish and respect.

"If some of these parlor 'Reds' could have been with me during those months of investigation of the anti-social groups of America, and felt that 'red' flame of anarchy breathing into their faces the message of destruction, they would have sickened at the stench of it. It is one thing to inflame the masses to an insane desire for revolution and live protected by law and order as the parlor provocateurs do, who urge on the mob to rebellion on "Wobbly Hill" at San Pedro, and quite another thing for these soft-handed agitators and sentimentalists to live and have their being made slimy by the primitive surge of impulses not far removed from the lower animals."

Professor Wedge has also written several books on industrial subjects.
